SITUATION SUMMARY

National News – Significant Events

6 dead, 3 injured in Michigan shooting spree

(ABC7) KALAMAZOO, Mich. -- A man drove around a western Michigan city shooting people at three locations Saturday, including a Cracker Barrel restaurant and a Ford dealership, leaving six dead and three injured, two of them critically, police said. Kalamazoo County Undersheriff Paul Matyas said a suspect was detained early Sunday in downtown Kalamazoo. Matyas said weapons were found in the man's vehicle and he did not resist when approached by law enforcement officers. "The threat to the public is over," he said early Sunday. Matyas said earlier that police believed the shootings were random and not targeting particular people, describing it as a "worst case scenario." He said the shootings began about 6 p.m. local time. In addition to the restaurant and the car dealership, the third location was an apartment complex. All of the shootings were in the parking lots. Kalamazoo is about 160 miles west of Detroit.

International News – Significant Events

Fiji Begins Cleanup After Ferocious Cyclone Kills at Least 1

(NBC7) Residents of Fiji were beginning to clean up and assess the damage Sunday after a ferocious cyclone tore through the Pacific island chain overnight and killed at least one person. Officials said they were trying to establish communications and road access to the hardest-hit areas, and wouldn't know the full extent of the damage and injuries until then. A curfew was extended through Sunday and police empowered to make arrests without a warrant. Cyclone Winston hit Fiji with wind speeds estimated at up to 285 kilometers (177 miles) per hour. It destroyed hundreds of homes and shredded crops. The worst affected areas were along the northern coast of the main island, Viti Levu. George Dregaso, a shift leader at Fiji's National Disaster Management Office, said one man on Koro Island was killed during the cyclone. He said another person on the west of Viti Levu had been hospitalized after being hit by flying debris. He said about 80 percent of the nation's 900,000 people were without regular power, although about one-third of those were able to get some power from generators. He said landlines throughout Fiji were down, but most mobile networks were working. Dregaso said there were 483 people who had evacuated from their homes and were staying in 32 emergency shelters. He said he expected the number of evacuees to rise.

SITUATION SUMMARY

Weather of Concern

Northern California

- There is no weather of concern

Southern California

- There is no weather of concern

Active Weather Warnings, Watches and Advisories by County:

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

A weak front is poised just offshore, ready to make its way into our forecast area later this morning and this afternoon. The upper level ridge currently in control over southern Oregon and Northern California will effectively shut the system down as it moves onshore, and compared to previous events, very little impacts are expected. Precipitation will be light.

Eureka Weather:

High pressure over the area will maintain dry weather conditions through tonight. A weakening front will bring a chance of light rain on Sunday. Dry and warmer weather conditions will return early next week.

Reno Weather:

High pressure will strengthen over the Sierra and Western Nevada this week, bringing dry conditions through the work week. Above average temperatures through Monday will ease down to near average for the lower valleys Tuesday, then jump to 8 to 14 degrees above average on Wednesday. The next chance for precipitation will be next weekend.

Sacramento Weather:

Dry weather expected through the week with above normal temperatures and some patchy morning valley fog.

San Francisco Weather:

Dry and unseasonably warm weather conditions will persist over the region through much of the upcoming week as high pressure builds along the West Coast. Chances for precipitation and a slight cooling trend may return late in the week and into next weekend as a storm system approaches the region.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

Dry weather will continue for the next several days as a ridge of high pressure dominates the pattern. Except for areas of night and morning low clouds and fog in the San Joaquin valley skies will be mostly clear through Thursday. A warming trend is expected through midweek with high temperatures averaging well above normal by Tuesday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

The warming trend will continue through Monday as offshore flow combines with building high pressure aloft. An approaching low pressure system will allow onshore flow and a cooling trend to develop by the weekend.

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

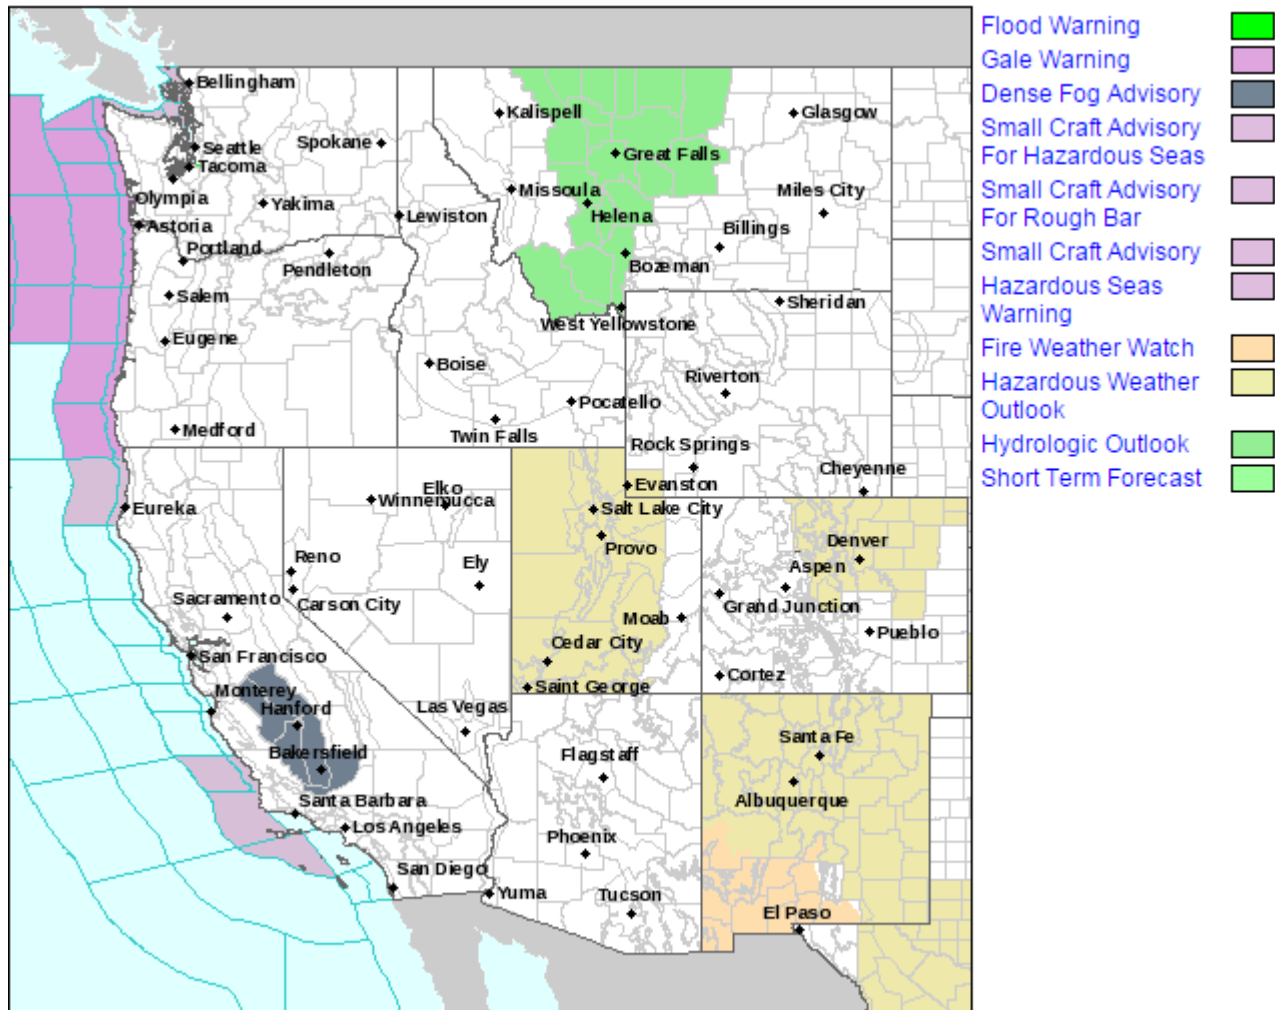

High pressure will continue the inland warming trend today. High pressure aloft near the West Coast will bring well above average high temperatures for Monday through Friday with gusty Northeast winds near the coastal foothills on Monday. Cooling will follow for next weekend as a weakening low pressure system moves inland through California.

Southeast California Weather:

Another unseasonably strong high pressure system is forecast to build over the region through Monday resulting in sunny skies with record or near record temperatures.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on the first Wednesday of each month.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 62 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 28 Counties: Butte, Colusa, Calaveras, El Dorado, Fresno, Glenn, Inyo, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

CAL OES MISSIONS

Ongoing Cal OES Missions:

- **2016-LAW-21430, (Re-opened), 2/20/2016, 0800 hours:** Sacramento Sheriff SAR requested 3 HRD water detection and 3 area search K9 teams with flankers along with 10 type 2/3 ground searchers to meet at 0800 hours to resume the search for a missing 73 year old male Indian citizen who walked away from his daughter's wedding on Grand Island. Cal OES K9 coordinator secured the K9 resources and El Dorado Sheriff filled the ground searcher request. Cal OES T-Comm unit provided a cache of 25 radios. LDO will be monitoring this search as it has gained media attention and the involvement of the US State Department. **MISSION ONGOING**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
